### Alternative Procedures for Shipping Materials

With charges for shipping materials constantly increasing, ICPSR has sought to cut these costs by sending materials by United Parcel Service (UPS) whenever possible. One problem that has arisen is that UPS will refuse to take parcels without either room and building numbers or street addresses, or when it does accept them, it experiences difficulty in delivering them without this information. We urge all requestors to add either room and building numbers or street addresses to their orders so that their materials can go via UPS. It has been our experience that UPS frequently delivers packages more rapidly than the United States Postal Service. Users who wish to send tapes to ICPSR via UPS should add the following street address:

426 Thompson Street  
Ann Arbor, Michigan 48109

## ERRATA TO DOCUMENTATION

1. Omitted from the codebook as well as the SPSS job control cards for William Flanigan and Nancy Zingale, American Voting Behavior: Presidential Elections From 1952-1976 (ICPSR 7581) were format statements describing the variable layout. They are presented below.

1952-1972 data file: (80F1.0)

1976 data file: (F2.1,40F1.0,F2.0,36F1.0)

Also missing from the SPSS job control cards for the 1976 file is the "weight" card. That card is represented below:

|          |        |
|----------|--------|
| column 1 | 16     |
| WEIGHT   | WEIGHT |

Users are advised to add that card to their deck. Please note that the 1952-1972 file is self-weighted and there is consequently no weight variable.

2. The ICPSR Study Number printed on the spine of the codebook for Historical Population, Economic and Social Data: France, 1901-1921 is incorrect; it should be 7529, not 7521.
3. An error in the documentation of United States Bureau of the Census, Current Population Survey Annual Demographic Files for 1968-1971 (ICPSR 7559-7562) has been brought to our attention. In the family records, character 34 is blank and characters 35 and 36 record the number of persons in the family (the documentation incorrectly stated that columns 34 and 35 contained the data variable with column 36 being blank).
4. Some further information is required on two studies recently announced; they are "International Monetary Fund, International Financial Statistics" (ICPSR 7629) and "Directions of Trade" (ICPSR 7628). While these two datasets are accurately described by their documentation and and thus identified as Class III, potential users should note that they are being supplied in the original format provided by the IMF, contain alphanumeric characters, and are not presently available in rectangular data matrix form. The data are grouped by variable within country; preceeding each group is a line containing alphabetic names of the variable and the country. Annual, quarterly and monthly data are contained in the same record.

## RECENT ADDITIONS/REVISIONS TO ARCHIVAL HOLDINGS

The following studies have been added to the holdings of the archive since the 1978-1979 Guide to Resources and Services and the Data Acquisitions, 1977-1978 went to press.

Law Enforcement Assistance Administration;  
STATE AND LOCAL PROSECUTION AND CIVIL ATTORNEY SYSTEMS  
(ICPSR 7674)

The study is a census of all state and local prosecutors and civil attorney systems. The data were collected in late 1976 by the U.S. Bureau of the Census for the Law Enforcement Assistance Administration. The study includes information concerning jurisdiction, funding and operation, employment, compensation, policies, and number and type of employees. There are 43 variables for 9229 agencies. Class II

Law Enforcement Assistance Administration;  
STATE AND LOCAL PROBATION AND PAROLE SYSTEMS  
(ICPSR 7673)

This study is a census of all state and local probation and parole systems. It was conducted in late 1976 by the U.S. Bureau of the Census for the Law Enforcement Assistance Administration. The data contain information on each agency, including: jurisdiction, funding and operation, employment, and client caseload. There are 93 variables for 3587 agencies. Class II

United States Bureau of the Census;  
UNITED STATES CENSUS DATA, 1970  
(ICPSR 18)

Substantial additions to the ICPSR holdings of 1970 Census Public Use Sample (PUS) files are currently being made. The archive has recently acquired the complete set of 15% 1/100 County Group Samples, as well as the County Group 15% 1/1000 sample. These files, now available for use, significantly augment the Consortium's collection of 1970 PUS files. Plans also call for the acquisition of the entire set of Neighborhood Characteristics and State Sample files from the 1970 PUS collection. Class IV

## ICPSR METHODOLOGY MONOGRAPH SERIES

The Inter-university Consortium for Political and Social Research is initiating a monograph series on social science methodology. The aim of the series is timely publication of innovative work, the scope of which exceeds that of journal article length. Each monograph will be between 60 and 125 pages in length.

The series will be interdisciplinary in scope and will emphasize quantitative research methodology including areas such as conceptualization and design, analysis, formalization, and computer utilization.

The editorial board consists of Michael Hannan (editor, Stanford University), Christopher H. Achen (University of California, Berkeley), Lutz Erbring (University of Michigan), Robert M. Hauser (University of Wisconsin, Madison), Paul W. Holland (Educational Testing Service), John E. Jackson (University of Pennsylvania), Karl G. Jöreskog (University of Uppsala), Samuel H. Preston (Population Division, United Nations), Richard Robinson (Johns Hopkins University), W. Phillips Shively (University of Minnesota), Aage B. Sørensen (University of Oslo), and Nancy Brandon Tuma (Stanford University).

Manuscripts (3 copies) should be sent to Professor Michael Hannan, Department of Sociology, Stanford University, Stanford, California 94305. Information on subscriptions, and individual and bulk orders may be obtained from ICPSR, Box 1248, Ann Arbor, Michigan 48106.

THE AUTHORITY LIST OF TITLES: STUDY TITLE INDEX OF THE ICPSR ARCHIVE

During the last twelve months many of the titles of studies in the ICPSR archive have been changed in order to enhance clarity and consistency. A list of study titles follows. The titles are presented in alphabetic order as they appear in the 1977-78 Guide to Resources and Services, with the following two additions:

- a) all of the old titles that have been changed are followed by their respective title changes;
- b) new studies that have been added to the archive within the last year (also listed in the "Data Acquisitions 1977-78" handout) have been included as well.
