

Get Ahead in Grad School

Grad school is tough. We get it.

Between prepping for comps, conducting research, and feeling the pressure to publish, you don't have time to struggle with stats and data analysis. That's where ICPSR's Summer Program comes in.

ICPSR Summer Program in Quantitative Methods Statistics & Data Analysis Courses

Jump-start your statistical training

Prep for comps and research with confidence

Develop the quantitative skills you need for real research

Network with leading scholars and researchers from around the world

Courses are available online and in-person

Scholarships, Discounts & TA Opportunities

We offer over \$150,000 in scholarships each year, group discounts, and paid teaching assistantships for qualified grad students.
